Installing your camera

Your **HUE HD Camera** can be connected to the computer's USB port without requiring a driver. Once the camera has been connected you can view the live video in your preferred video software.

For help setting up your camera go to **huehd.com/help**

Windows 11, 10, Chrome OS: Newer versions include a built-in app called **Camera** which will automatically detect your HUE HD Camera.

Windows XP, Vista, 7, 8: If you don't have any camera software installed, you can download a free viewing tool at the link above.

macOS: Your built-in QuickTime Player, FaceTime and Photo Booth software will automatically detect your HUE HD Camera. To use the camera as a document camera, you can open QuickTime Player and select **File**, then **New Movie Recording** from the menu bar.

If you like HUE...
...try the **HUE HD Pro Camera**

Capable of capturing a full A4 or US Letter sized page, the HUE HD Pro Camera is the perfect document camera for schools.
